# cloud computing is a model

a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g. networks, servers, storage, applications and services) that can be rapidly provisioned and released with minimal management effort or service provider

# CSA PLA v3

 Sicuro | [https://cloudsecurityalliance.org/group/privacy-level-agreement/#\\_overview](https://cloudsecurityalliance.org/group/privacy-level-agreement/#_overview)

I think [the PLA Outline] is a very helpful document, both for potential customers of CSPs and for CSPs themselves.

By following closely the WP29 Opinion it ensures that both parties understand the obligations under EU law – probably the strictest requirements they will have to comply with.
